- (1) Assumes conversion of all of the securityholder's notes at a conversion price of \$34.41 per share of common stock. The initial conversion price of \$36.531 per share has been adjusted to reflect a cash dividend of \$0.40 per share of common stock and a 5% stock dividend paid by us on September 28, 2001. The conversion price is subject to further adjustment as described under "Description of Notes-Conversion Rights" and, as a result, the amount of common stock issuable upon conversion of the notes may increase or decrease in the future.
- (2) Calculated based on Rule 13d-3(d)(i) of the Exchange Act using 31,548,753 shares of common stock outstanding as of October 18, 2001. In calculating this amount, we treated as outstanding the number of shares of common stock issuable upon conversion of all of that particular securityholder's notes. We did not assume, however, the conversion of any other securityholder's notes.

Investing in the notes and our common stock involves risks, which are described under "Risk Factors" beginning on page 11 of the prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.
